Superclamp Swivel Jaw Adjustable Girder Clamps

Product information

Swivel Jaw Adjustable Girder Clamps incorporate the additional benefit of horizontal jaw adjustment. Incorporating machined jaw, adjusting mechanism and lifting shackle.

This enables the full length and a maximum width of the swivel jaw to anchor evenly on a considerable surface area of the beam flange.

The "Swivel Jaw" range of SUPERCLAMP products are designed to ensure ease of application.

Additional tools or width adjusting components are not required since the left and right hand threaded adjusting bar will adjust to the jaw grip from 89mm to 305mm.

Proof load: 2 x WLL.

... *Read more*

Finish: Yellow painted.
Note: All WLL apply to vertical lifting only.

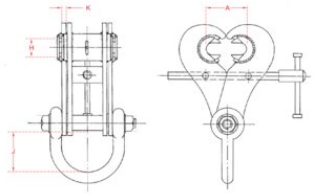

Safety factor: 5:1.
