

JAG System Haul kit, Petzl

Product information

The JAG SYSTEM haul kit for pickoffs, making a releasable anchor, or tensioning a system, thanks to its 4:1 mechanical advantage and excellent efficiency (sheaves with sealed ball bearings). The collapsed kit is highly compact, allowing it to be used even when the distance to the anchor is very short. The JAG SYSTEM haul kit is quick and easy to deploy: it is ready to use thanks to the flexible cover that prevents any risk of tangling. The haul end is color-coded for instant identification.

Material: Aluminum, nylon, polyurethane

Marking: According to standard, CE-marked, UKCA-marked

Temperature range: -40°C up to 80°C

Standard: EN 358, EN 567, EN 12278, EN 362
