

Pulley MOBILE, Petzl

Product information

The MOBILE pulley is a lightweight and ultra-compact pulley designed for setting up haul systems and load deviations. Its swinging side plates allow quick installation, making it well suited for applications where fast system configuration and minimal equipment weight are important.

Best used for:

- Haul systems using 6 to 13 mm rope.
- Load deviation setups requiring compact, lightweight equipment.

Product benefits:

- Swinging side plates enable quick pulley installation.
- Self-lubricating bushings provide 71% operating efficiency.
- Compact 21 mm sheave helps reduce equipment bulk.
- Maximum working load: 5 kN
