

Throw-Line AIRLINE, Petzl

Product information

1. The AIRLINE throw-line offers an excellent compromise between flexibility and rigidity, for an accurate throw without the formation of knots as it comes out of the bag. The excellent sheath-core bond maintains a round cross-section, ensuring good rope glide through the tree. It is available in two versions: 60 and 300 meters.
2. Combines flexibility for a precise throw and stiffness for avoiding knot formation as it comes out of the bag
3. Excellent sheath-core bond maintains a round cross section, ensuring good rope glide through the tree. The sheath is made of Dyneema® for excellent abrasion resistance
4. Lightweight, does not require a very heavy throw bag
5. Yellow for excellent visibility
