Quickdraw Sling EXPRESS, Petzl

Product information

The EXPRESS quickdraw sling is a technical webbing connector used to link carabiners in climbing and rope access systems. It is designed to provide a secure, easy-to-handle connection while helping manage rope movement and reduce drag during use. The ergonomic shape and integrated STRING support consistent handling and equipment alignment.

When to choose this product

Best for:

- Route climbing or rope access where frequent clipping is required
- Setups needing improved handling and reduced rope drag

Not ideal for:

- Applications requiring adjustable or length-variable connectors

Product benefits

- Ergonomic shape improves grip during repeated clipping actions
- STRING stabilizes carabiner position and reduces twisting during use
- Webbing protection at rope-end helps limit wear at connection point
- Multiple length options support better rope routing and drag control
- Lightweight construction supports efficient gear handling over long routes
