

Harness VOLT wind, Petzl

Product information

Fall-arrest and work positioning harness for the wind power industry with attachment point for vertical progression on rail or cable-based fall protection system.

The VOLT WIND fall-arrest and work positioning harness is very quick to don, thanks to the FAST LT PLUS and FAST LT buckles that allow it to be donned with both feet on the ground. The wide, semi-rigid waistbelt and leg loops provide excellent support. Its lightweight, breathable construction maximizes air flow. Its LADDER CLIMB attachment point allows for ventral attachment of the fall-arrest trolley, providing optimal comfort during progression. It has wear protectors on the waistbelt and dorsal point to limit wear when moving about inside the wind turbine tower. It is certified to European and Russian standards.

Material: Nylon, polyester, aluminum, steel

Marking: According to standard, CE-marked, UKCA-marked

Standard: EN 358, EN 361, EN 813
