

## Transport Bag DUFFEL 65, Petzl

### Product information

Medium-capacity transport bag.

Designed to be carried in multiple ways, DUFFEL 65 is a convenient, ergonomic bag with a volume of 65 liters. The back and shoulder straps are padded for comfort when used as a backpack. Versatile, it can be carried in multiple ways with removable shoulder straps.

- Ergonomic and comfortable
  - Padded back and shoulder straps for comfortable carrying
  - Two carry options: as a backpack or over the shoulder
  - Four compression straps to optimize bag volume and to reduce shifting of equipment during transport
  - Rapid buckles allow the shoulder straps to be completely removed
- Easy access to equipment:
  - Large D-shaped opening for easy equipment organization
  - Two pockets (one with a key clip) in the inner flap to organize documents and personal items
  - Large side pocket with zipper closure to separate the helmet, shoes, or other objects from the rest of the equipment
  - Transparent area for quick and easy identification of the bag
  - Four webbing handles around the bag for easy handling on all sides
  - Eight equipment loops inside the bag
  - Able to lock zippers with a padlock
- Excellent durability for intensive use:
