

Activa Marking Light PWX 1800 GPS

Product information

The ACTIVA 1800 marking light is a complete mast for marking aquaculture facilities. The signal light, reflector, radar reflector, and color are in accordance with the recommendations of the Norwegian Coastal Administration.

The mast can be mounted on all ACTIVA buoys between FFB 1500 - FFB 11300 using a bracket between the buoy and the mast. There are also adapters available for other types of buoys. The mast can be split in the middle for easy access to the battery and replacement.

ACTIVA 1800 PWX GPS

Range: 3 nautical miles with visibility $T_c=0.74$

Intensity: 17 Candela

Color: Yellow

Signal code: Oc Y 2s

Daylight switch: Yes

Synchronization: Yes, with built-in GPS

Radar reflector: Built-in

Operating time: Typically 2 years between battery replacement

Battery: 18V 220Ah (alkaline with plug)

Marking: According to standard

Standard: EN 61000

Part code

8631178578

Weight
kg
