

Spectacle PERSPECTA MSA 010

Product information

The PERSPECTA 010 Spectacles has a semi-frame and slim-temple design, and a full wrap around with base curvature 9 lenses.

- More coverage without the distraction of seams or traditional type side shields
- Temples with 5 angle position and 4 length position adjustments
- Special co-material nose cushion secures the spectacles to your face without slipping and provides a pillow soft fit
- Special co-injected brow cushion for exceptional comfort and protection from injury
- Cut-outs in cushion surface allow air flow while wearing the spectacles close to the face in order to minimize lens fogging
- Sightgard coating: MSAs popular anti-fog coating with good anti-scratch properties
- TuffStuff coating: Antiscratch according to EN 166 "K"
- Filters out 99.9% of harmful UV radiation

Material: Polycarbonate, TPE, Stainless Steel

Marking: According to standard, CE-marked, Mechanical resistance to impact, Optical Class, Standard Number, Resistance to surface damage by fine particles

Temperature range: -5°C up to 55°C

Standard: EN 166
