Product information

FRAM B Master Links – for demanding lifting operations

Nøsted & is Norway's only manufacturer of master links and lifting heads. FRAM B master links are designed for demanding lifting operations in industry, offshore and aquaculture, and are produced to strict quality and safety requirements.

FRAM B master links are manufactured according to EN 1677-4 and type approved by DNV (formerly DNVGL) in accordance with DNVGL 2.7-1. They are also certified in accordance with NS 9415:2021 for use in aquaculture.

The master links are produced in sizes up to 70 mm and 84.4 tonnes with a safety factor of 5. All master links and hooks are proof-tested to 2.5 times the WLL (Working Load Limit) and delivered with certificates.

Features and benefits

- Norwegian-made FRAM B master links from Nøsted &
- Manufactured in accordance with EN 1677-4
- DNV type approved according to DNVGL 2.7-1
- Certified according to NS 9415:2021 for aquaculture use
- Produced up to 70 mm and 84.4 tonnes (SF 5)
- All master links and hooks proof-tested to 2.5 × WLL
- Delivered with full traceability and certificates
- Available with thermal galvanization and traditional hot-dip galvanization (depending on variant)
