Lanyard ABSORBICA®-Y MGO, Petzl International Version

Product information

ABSORBICA-Y MGO is a double lanyard with compact energy absorber, designed for progression on a vertical structure or a horizontal lifeline, and for passing intermediate anchors.

- Designed for progression on a vertical structure or horizontal lifeline, and when passing intermediate anchors
- Absorbs energy in the event of a fall:
  - Progressive tearing of the energy absorber webbing limits the impact force on the user
  - Works with users who weigh between 60 and 140 kg
- Minimal bulk:
  - Energy absorber's very compact design doesn't hinder the user during progression
  - FLEX version with 150 cm of elasticized webbing to avoid hindering progression
- Durable fabric pouch with a simple opening system protects the energy absorber from abrasion or contaminants while allowing for regular inspection of the absorber
- Ready-to-use solution:
  - Comes with two large-opening MGO connectors on the end of the lanyard and a Bm'D connector for harness attachment
- Available in two versions: 80 (rope arms) or 150 FLEX (elasticized arms)

Certification(s): - CE EN 355 (the 150 FLEX version meets the requirements of the RFU PPE-R/11.074) - ANSI Z359.13, 12 ft. FF - CSA Z259.11-17 (only the 150 FLEX version) - Compliant with the Japanese standard for fall protection - GB/T 24538: type II
