

Headlamp XENA®, Petzl

Product information

Designed for maintenance, industrial, inspection, and technical rescue professionals, the XENA® headlamp offers an excellent weight-to-power ratio (185 grams / 1400 lumens). The battery pack is in the rear, making it balanced and comfortable to wear. Durable, it is fall and impact resistant. It is also waterproof and dustproof, making it suitable for various work conditions.

Three beam types and five lighting levels provide optimal visual comfort in a variety of situations. CONSTANT LIGHTING technology provides stable lighting intensity over time. It features a rotating knob that is easy to use, even when wearing gloves. Wear the lamp on your head or mounted on a variety of helmet types using compatible accessories for a convenient solution.

Rechargeable via USB-C, the battery is removable and replaceable.

Marking: CE-marked, UKCA-marked
