Headlamp Swift® RL 1100 Lumens Petzl

Product information

Compact, ultra-powerful, and rechargeable headlamp featuring REACTIVE LIGHTING® technology casting 1100 lumens.

SWIFT RL is the ultimate multi-sport headlamp for all your outdoor activities. Using REACTIVE LIGHTING® technology, a sensor analyzes the ambient light and automatically adjusts brightness to your needs. The headband is reflective to remain visible at night. Its split construction gives you excellent stability during dynamic and intense activities such as mountaineering, trail running, and skiing. SWIFT RL is intuitive to use, with a single button that easily controls all functions: ON/OFF, lighting modes, brightness, and locking. If necessary, you can also use the continuous or strobe red lighting. It is rechargeable, with a five-level gauge that allows you to monitor the battery charge level.

Features:

- 1100 lumens allowing you to see up to 155 meters away
- Choice of two lighting modes, selected with a long hold: REACTIVE LIGHTING® or STANDARD LIGHTING
- Longer burn time, greater visual comfort, and less manual operation with REACTIVE LIGHTING® mode, which allows the light sensor to automatically adjust brightness and beam pattern, optimizing battery usage
- Minimum burn time of 7 hours in REACTIVE LIGHTING® mode (STANDARD level), built to power through long activities
- Mixed beam meets the need for high-performance lighting during outdoor activities: proximity or distance vision
- Ergonomic and adjustable headband provides the ideal fit, with split construction (Petzl patent); the headband can also be detached and washed
- LOCK function to avoid accidentally turning on the lamp during transit or storage

Brightness: 1100 lumens (ANSI FL 1 STANDARD) ... *Read more*
