

Descender RIG, Petzl

Product information

RIG is a compact self-braking descender for rope access, designed for experienced users. It has an ergonomic handle that allows comfortable descent control.

The AUTO-LOCK system allows users to easily position themselves at the work station without having to manipulate the handle or tie off the device. Once locked, the rope can be taken up without having to manipulate the handle. The safety gate allows the rope to be installed with the device remaining connected to the harness.

Descending a heavy load up to 200 kg.

Material: Aluminum, steel, nylon.

Marking: According to standard, CE-marked

Temperature range: -40°C up to 80°C

Standard: EN 341, EN 12841
