

Lanyard ABSORBICA®-Y MGO Petzl

Product information

ABSORBICA®-Y MGO is a double lanyard with compact energy absorber, designed for progression on a vertical structure or a horizontal lifeline and when passing intermediate anchors.

Absorbs energy in the event of a fall:

- tearing of the energy absorber webbing limits the impact force on the user
- works with users who weigh between 50 and 130 kg
- progressive tearing reduces the deceleration on lightweight users

It is available in two lengths: 0.8 m or 1.5 m versions without connectors (with connectors 1.3 m and 2.0 m). The 1.5 m version has elasticized arms, to avoid hindering progression. With two MGO large-opening connectors.

Material: Polyester, nylon, high-modulus polyethylene, aluminum

Marking: According to standard, CE-marked

Standard: EN 355, EN 362

Part code	Length m	Weight kg	Delivery time
