Tron TR30 GMDSS and Maritime VHF radio with Charger and Rechargeable Battery

Product information

The Tron TR30 GMDSS and Maritime VHF Radio is an innovative radio that provides users with access to both standard GMDSS simplex channels and full maritime duplex channels.

Additionally, the floating Tron TR30 GMDSS and Maritime VHF Radio can be connected to an IP67-rated speaker microphone or a headset with a PTT module. The small, compact two-position charger is easy to install and allows the user to view vital information on the display while the radio is charging.

Features:

- A floating GMDSS and maritime VHF radio
- Full duplex channels accessed with rechargeable battery
- Preset emergency mode when connected to primary battery
- Excellent microphone noise cancelling
- Waterproof accessories
