Compact Energy Absorber ASAP'SORBER AXESS Petzl

Product information

The ASAP'SORBER AXESS is a compact energy absorber designed for use with the ASAP LOCK or ASAP mobile fall arrester. It helps rope access technicians maintain distance from the rope to protect it during specific work phases, while limiting impact force in the event of a fall.

When to choose this product

Best for:

- Rope access work where rope protection is needed during movement or positioning.
- Two-person rescue scenarios, up to a combined load of 250 kg.

Product benefits

- Works only with ASAP LOCK or ASAP mobile fall arresters for correct system use.
- Flexible webbing follows the device smoothly during movement.
- Durable pouch helps protect the tear-webbing from abrasion and contaminants.
- Pouch opens for straightforward routine inspection.
- Replaceable pouch supports serviceability when wear occurs.
