Drum Lifting Clamp - IPDV

Product information

The IPDV drum clamp is for vertical lift and transfer. Allows drum to remain in an upright position during the lift and transfer using one clamp. You can use it either singel or with a number of clamps under a spreader beam to load or unload containers and cargo holds.

Features:

- Welded alloy steel body for strength and smaller size. Forged alloy components, where required.
- Individually Proof Tested to 2 times the Working Load Limit with certification.
- User manual with test certificate is included with each clamp.
- Maintenance and repair kits are available.
- IPDV is RFID EQUIPPED.
