Fire Extinguisher on trolley Powder 25 kg

Product information

The PP25GMED is a 25 kg powder fire extinguisher on trolley with wheels designed for mobile fire protection in medium to large risk environments. It uses stored pressure with ABC powder to address Class A, B, and C fires. This unit provides a balance between capacity and manoeuvrability for sites requiring faster deployment than larger extinguishers.

Product benefits:

- 25 kg ABC powder charge supports effective fire suppression across multiple classes
- 30-second discharge time enables controlled response to developing fires
- 8 metre jet length allows operation from a safer working distance
- Compact trolley design improves handling and positioning in tighter areas
- Compliant with EN 1866-1 for regulated industrial use
