Compact Mobile Fall Arrester for Rope ASAP® Petzl

Product information

ASAP® is a compact mobile fall arrester for rope designed for everyday work at height. It moves freely along the rope during normal use and locks automatically in the event of a fall or uncontrolled descent, helping maintain continuous protection in rope access and fall-arrest systems.

When to choose this product

Best for:

- Work at height on vertical, horizontal, or angled rope systems
- Rope access or fall-arrest setups needing a mobile, automatic device

Not ideal for:

- Rope systems outside 10 to 13 mm diameter compatibility

Product benefits:

- Automatic blocking stops falls and uncontrolled descents over two meters per second.
- Toothed wheel maintains performance on dirty or frozen ropes.
- Moves freely without manual action for smoother ascents and descents.
- Works as a primary belay or backup device in rope access systems.
- Compatible with certified setups for 140 kg users or 250 kg rescue use
