Backpack EXPERT 55, Petzl

Product information

The backpack EXPERT 55 is a 55-liter equipment pack for organizing and transporting gear in rope access, team rescue, and tree care work. It opens fully flat for job preparation and includes multiple access points for faster equipment retrieval.

Best used for:

- Rope access, rescue, and tree care teams carrying organized equipment.
- Intensive field use where gear access and pack durability matter.

Product benefits:

- 55-liter capacity supports structured transport of professional equipment.
- Seven pockets and sixteen loops help organize and secure gear.
- Fully opens flat for efficient preparation and inspection.
- TPU material and welded base resist wear in intensive use.
- Padded straps, back panel, and waistbelt improve carrying comfort.
