Backpack EXPERT 40, Petzl

Product information

The backpack EXPERT 40 is a 40-liter pack for organizing and transporting professional equipment. It is designed for intensive use where quick access, secure organization and comfortable carrying are important.

Best used for:

- Rope access, rescue and work-at-height equipment transport.
- Users needing side and top access to organized gear.

Product benefits:

- 40-liter capacity supports organized personal equipment transport.
- Padded back and straps improve comfort during carrying.
- Side and top openings provide faster access to equipment.
- TPU wear zones and welded base improve durability.
- Six equipment loops and three pockets secure mixed gear.
