Throw-bag JET, Petzl

Product information

The throw-bag JET from Petzl is a weighted throw bag for arborist and tree-care line placement. Its streamlined yellow design helps it pass through branches and remain visible during work.

Best used for:

- Tree-care and arborist throw-line installation.
- Selecting throw weight by task, with 250, 300 or 350 g options.

Product benefits:

- Two-layer construction supports long service life.
- Streamlined shape passes more easily through branches.
- Colored stitching helps identify different bag weights.
- Secondary connection point allows quick rope attachment.
- Yellow colour improves visibility during use.
