

Pulley MINDER S2, Petzl

Product information

The MINDER S2 is a lightweight double Prusik pulley designed for rescue professionals and progress-capture systems. Featuring two parallel-mounted sheaves and an auxiliary attachment point, it enables the configuration of more complex haul systems while maintaining compact dimensions and high operating efficiency.

Best used for:

- Progress-capture systems using a Prusik friction hitch.
- Complex hauling and rescue system configurations requiring multiple rope paths.

Product benefits:

- Dual sheaves support complex haul system configurations.
- Side plates designed for efficient Prusik hitch integration.
- Sealed ball bearings deliver 91% pulley efficiency.
- Auxiliary attachment point expands rigging possibilities.
- Compact, lightweight design reduces equipment bulk.
- Side plate design helps protect the rope path.
- Maximum working load: 6 kN

Material: Aluminum, stainless steel

Marking: According to standard, CE-marked

Standard: EN 12278

Note: Breaking strength of the auxiliary attachment point: 12 kN
