Pulley MINDER S1, Petzl

Product information

The MINDER S1 is a compact, high-efficiency Prusik pulley designed for work-at-height professionals and on-site rescue systems. Its side plates are optimized for use with a Prusik friction hitch in progress-capture systems, providing smooth operation and efficient handling of moderate loads.

Best used for:

- Progress-capture systems with a Prusik friction hitch.
- Everyday work-at-height tasks and on-site rescue setups.

Product benefits:

- Side plates designed for efficient Prusik hitch integration.
- Sealed ball bearings deliver 91% pulley efficiency.
- Compact design supports efficient moderate-load handling.
- Attachment holes fit up to two carabiners and allow rotation.
- Side plate design helps protect the rope path.
- Maximum working load: 5 kN
