

## Pulley MINDER L1, Petzl

---

### Product information

The MINDER L1 is a high-strength Prusik pulley designed for rescue professionals and progress-capture systems. Engineered for intensive use and heavy-load handling, it combines a large-diameter sheave with sealed ball bearings to deliver very high efficiency and smooth operation.

#### Best used for:

- Progress-capture systems using a Prusik friction hitch.
- Rescue, recovery, and hauling applications involving heavy loads.

#### Product benefits:

- Side plates designed for efficient Prusik hitch integration.
- Sealed ball bearings deliver 97% pulley efficiency.
- Large 51 mm sheave improves hauling performance under load.
- Attachment holes accommodate up to three carabiners.
- Side plate design helps protect the rope path.
- Maximum working load: 8 kN
