Bag for NEST litter, Petzl

Product information

The Petzl Bag for NEST Litter is a transport and storage bag designed specifically for the Petzl NEST rescue litter. It helps protect the litter during storage and handling while making transport more practical in rescue, industrial, and rope access environments. The design allows the litter to remain easier to maneuver without removing it from the bag.

Best used for:

- Transporting and storing the Petzl NEST rescue litter between operations.
- Rescue, industrial access, offshore, and confined space environments where equipment protection and handling efficiency are important.

Product benefits:

- TPU construction resists wear during transport and storage.
- End openings allow litter handles to remain accessible.
- Three carrying handles support flexible manual handling.
- Adjustable shoulder strap improves transport convenience.
- Velcro closure enables quick access and secure storage.
