

## Accessory STRING, Petzl

---

### Product information

STRING is a TPE accessory for maintaining correct connector orientation on compatible webbing. It helps protect the carabiner attachment loop from wear and supports more consistent connector positioning during professional work-at-height use.

#### Best used for:

- Maintaining connector orientation on lanyards or webbing-based systems.
- Applications using 15–20 mm or 25–30 mm webbing.

#### Product benefits:

- Helps keep connectors correctly oriented during use.
- Protects carabiner attachment loops from wear.
- TPE construction suits flexible attachment applications.
- M fits 15–20 mm webbing, XL fits 25–30 mm webbing.
