

Battery STIHL AP 500 S

Product information

The STIHL AP 500 S is a 337 Wh rechargeable battery for professional cordless equipment, including the EDER Power Climber. Power Laminate technology supports sustained performance, long service life and fast charging for demanding field applications.

Best used for:

- Power supply for compatible EDER Power Climbers.
- Professional applications requiring durable battery performance in exposed conditions.

Product benefits:

- 337 Wh capacity supports extended operation during demanding work.
- Up to 2,400 charging cycles supports a long service life.
- IPX4-rated construction provides protection against water exposure.
- Power Laminate technology supports sustained performance and faster charging.
- Fast charging with STIHL AL 500 charger.
