

Fall Arrest ASAP® KIT with ASAP'SORBER AXESS, Petzl

Product information

The Petzl ASAP Kit with ASAP'SORBER AXESS is a pre-assembled fall-arrest system designed for work at height and two-person rescue scenarios. Its ASAP'SORBER AXESS configuration supports applications up to 250 kg, making it suitable where a fall-arrest system may need to accommodate two people during rescue.

Best used for:

- Professional fall protection where rescue capability is required.
- Two-person rescue scenarios with a total load up to 250 kg.

Product benefits:

- ASAP'SORBER AXESS enables two-person use during rescue scenarios.
- ASAP follows rope movement without requiring manual operation.
- Locks during falls and uncontrolled descents exceeding 2 m/s.
- Compatible with vertical, horizontal and angled 10 to 13 mm ropes.
- Conforms to CE EN 12841 type A and CE EN 353-2 in specified configurations [... Read more](#)

Marking: According to standard

Standard: EN 12841-A, EN 353-2
