Lanyard MICROFLIP, Petzl

Product information

Reinforced adjustable positioning lanyard for tree care work

MICROFLIP is an adjustable lanyard for positioning in tree care work.
Its cable core reduces the risk of severing the lanyard and facilitates moving about on the trunk.

- To be used in double mode on the harness side attachment points
- Lanyard with cable core to reduces risk of severing the lanyard

Simple and efficient:

- ergonomic MICROGRAB cam-loaded rope clamp for rapid length adjustment
- reinforced lanyard that is supple enough to reduce bulk in storage and when carried on the harness, while providing good handling and enough rigidity to facilitate moving about on the trunk
- reinforced lanyard in yellow color for excellent visibility
- ends equipped with a plastic sheath to hold the carabiners in correct position

Optimal longevity:

- the sheath of the reinforced lanyard is bonded to the cable for better hold and longer product life
- ends protected from abrasion by the plastic sheaths
- may be used with the MICRO SWIVEL to avoid twisting
- reinforced rope available as a replacement part
