

Arctic Offshore Master Link M

Product information

The Arctic Offshore Master Links are highly suitable to withstand shock loads and fatigue, even in extremely cold conditions. The new master link range has a design temperature of -40 °C, making it suitable for even the harshest weather conditions such as in the North Sea.

Approvals: DNV 2.7-1 and DNV 2-7-3

Material: Quenched and tempered alloy steel grade 8+ OS.

Marking: According to standard, code and grade.

Finish: Painted.

Standard: EN 1677-4

Safety factor: 5:1

Grade: 10
