

Rope clamp RESCUCENDER, Petzl

Product information

The Petzl RESCUCENDER is an openable cam-loaded rope clamp designed for hauling systems, functioning as a traction or progress capture device. Its ergonomic construction allows installation or removal at any point along the rope, simplifying setup and adjustments during professional rope operations.

Best used for:

- Hauling systems requiring traction or progress capture.
- Professional rope operations using compatible ropes from 9 to 13 mm, depending on certification.

Product benefits:

- Openable cam: Enables installation and removal anywhere along the rope.
- Independent safety catches: Reduce accidental opening, with visible unlocked indicators for easier checks.
- Integrated cam spring: Helps prevent snagging and improves durability.
- Large attachment hole: Facilitates carabiner rotation for easier handling. [... Read more](#)

Material: Aluminum, stainless steel, nylon

Marking: According to standard, CE-marked

Standard: EN 567, EN 12841-B
