

Emergency Light W4

Product information

Automatic Emergency light for suits and lifejackets, DAN W4-3

Daniamant Alkaline Lifejacket light is the new and environmentally friendly concept in emergency lights.

The light meets all testing requirements of SOLAS and the Marine Equipment Directive.

Using alkaline battery technology, this new range will last for 60 hours – much more than the required 8 hours.

It activates automatically when in water and can be turned off manually if required.

The light is equipped with a practical bracket for easy mounting where appropriate on lifejacket or suit.

Material: ABS & Polycarb
