Polyform High liner HL -series

Product information

General: Cylindrical, ‘bullet-shaped’ POLYFORM® HL-buoys are specially designed to reduce drag when used under conditions with strong currents. Under some conditions, the HL-buoys can considerably reduce the drag when compared to spherical buoys.
The HL-buoy is also a popular fender, especially on boats with low freeboard. Designed with the original POLYFORM® blue-top ropehold, the HL-buoys are heavyduty buoys, used by commercial fishermen in inshore and offshore environments.
